

Iowa Attorney General Tom Miller gives outstanding speech on smoking, vaping and public health - listen

Quite simply the best speech I have ever heard on tobacco and nicotine policy, science and ethics. From [Tom Miller](#) one of the architects of the United States Master Settlement Agreement and Chair of the [Truth Initiative](#). A model of decency, humility and rigorous scientific reflection, in my opinion.

The speech was given over lunch at the [Food and Drug Law Institute Tobacco Conference](#), 27 October 2016 in Washington DC.

General Miller's speaking notes are available [here](#) (check against delivery).
