Iowa Attorney General Tom Miller gives outstanding speech on smoking, vaping and public health - listen

Quite simply the best speech I have ever heard on tobacco and nicotine policy, science and ethics. From <u>Tom Miller</u> one of the architects or the United States Master Settlement Agreement and Chair of the <u>Truth Initiative</u>. A model of decency, humility and rigorous scientific reflection, in my opinion.

The speech was given over lunch at the <u>Food and Drug Law Institute Tobacco</u> <u>Conference</u>, 27 October 2016 in Washington DC.

General Miller's speaking notes are available <u>here</u> (check against delivery).
